the bonds of the Mississippi Central Railroad Company, due the 1st Movember next, on presentation of

coupons. The business of the Clearing-House was \$23,915,000. By the advices from Europe, via Philadelphia and gebec the rumers of the suspension of the Bank of France are not confirmed. The telegraph makes no mention of the Back, which could scarcely have been the case if it had suspended specie payment. The advance in the rate of interest by the Bank of England was not unexpected, but is greater than was anticipated. This advance, like the previous one, must have been made before the regular day of meeting of the Directors. Breadstuffs were in good demand and advancing. There appears to be now little doubt that our farmers will find a ready market and good prices for all their surplus grain, and our western roads be fully occupied all Winter in transporting it to the seaboard Cotton was buoyant, but the movement was checked by the advance in the rate of interest.

The steamer to-day from Boston took \$275,000 in It is understood that one money-lending house in

Wall street has over \$300,000 of the Huntington forgeries on hand. The holders of this forged paper are

very shy of admitting the fact.

Flour was not very active this morning, but after the foreign news, holders were firm. There was an active demand for Wheat, and prices improved 1 a 2c. bushel, with sales of about 60,000 bushels Corn is in good demand and improving. In Provisions there is no change of importance. Groceries are firm. Sugare continue very active, and have an upward tendency. The Tea sale went off with spirit, and some descriptions advanced. Cotton continues dull

The Ocean Steam Navigation Company between this port and Bremen has been one of the most successful of the steam lines established between the two confinents. It is understood that in addition to regular dividends the Company has accumulated \$100,000 surplus in a capital of \$600,000. Some of the stockholders are indignant that this surplus is not divided among those to whom it belongs.

The annual report of the Baltimore and Ohio Rail-

road states that the gress earnings of the Main Stem for the past year are \$4,385,951 87, "being an increase of \$674,498 02 over the previous year;" while "the expenses of working the Main Stem for the fiscal year, and keeping the road and machinery in order, have amounted to \$2,384,779 54, being 54] P cent upon the gross earnings, and compared with the previous year is 2.49 V cent less." Since Sept. 30, 1855, various payments have also been made, amounting in the aggregate to \$1,336,071 21, by which the entire floating debt of the Company has been liquidated, with the excep-tion of \$3,500 not yet matured. The profit and loss account shows the clear gain for the fiscal year to be \$1,443,748 79, or upward of 14 P cent on the aggregate capital stock. The net earnings of the Main tem, inclusive of all extraneous receipts, exceed 12 P cent. The profit and loss account shows a surplus of \$3,833,071 75 or \$3,529,807 15, with the proposed dividend of 2 V cent on the 21st inst. deducted.

The earnings of the Milwankee and Mississippi Railroad, for the first nine working days in October, were: 1856. \$39,122 3* 1855. 31,721 69

As the total receipts for October last year were \$112,162 41, this indicates a revenue of some \$130,000 for the current month.

The receipts of the Illinois Central Road, for the second week of October, were \$72,174, which is the largest week ever known on this road.

The receipts of the La Crosse and Milwankee Koad,

for the week ending 18th inst., more than sustain the promise of the early part of the month. They were 19,867 62, making \$50,000 for the month up to the date, equal to \$80,000 for the entire month.

citizens of Galena and the Milwaukee and Mississippi Railread Company, by which the former are to build a railroad to intersect the Milwaukee and Mississippi road at a point thirteen miles west of Monroe, Wiscon-sin, to which point the Milwaukee and Mississippi Company agrees to construct their road next season. This arrangement completes the southern line of the Milwaukee and Mississippi road, and unites Milwaukee with Galena and Dubuque, and is highly advantageous to all parties concerned.

That part of the Indianapolis and Peru Railroad lying between Indianapolis and Noblesville (some 16 miles) has recently been relaid with a heavy T rail in place of the flat bars, taken up. The whole line is now laid with a heavy rail. The receipts of the line have greatly increased since the relaying and making connection with the Wabash Valley Road at Peru The monthly receipts now reach from \$16,000 to \$26,600.

We hear of a failure in the grocery trade of a house

heretofore in good standing.

The imports of Foreign goods at the port of Boston, for the quarter ending Sept. 30, 1856, were as follows:

In American vessels \$7,162,000
In Foreign vessels 3,393,128 Total \$10,555,214
Value of Canada goods. 1,186,096 Increase..... \$1,196,693 The annexed is the comparative statement, for two

weeks, of the New-Orleans banks:

Actual Increme of Loans for the week The Boston Post says of the money market:

The Boston Post says of the money market:

"Another week has passed, without any noticeable change in this money market. It is as easy and comfortable as need be, at 8\[\frac{1}{2}\] ap \[\frac{1}{2}\] cent for \(\frac{1}{2}\) etc. The class paper, which, by the way, is scarce. We perceive no difference in the course or means of the banks. Anybody, with good names or securities, can obtain money at reasonable rates. The general demand is not large, and is devoid of activity. New York funds were in brisk request at the close of the week, but we do not learn of the loss of any specie, and presume, therefore, that the supply was ample. Business is quiet."

The Lake Superior Journal of the 10th inst. furnishes the following information relative to mining matters: IRON-SHIPMENTS.-The receipts of ore are very

Messrs, Peter White & Co., shipped for the Collins Iron Compay, per steamer North Star, five tuns of iron blooms. The same Company have now a large lot ready.

COPPER-STOCKS -The accounts received from the copper mines are still not only favorable but truly as-tomishing, even to those who have long been accus-tomed to seeing immense masses. The "Cliff" con-tinues to be the king; nevertheless, the smaller mines are steadily advancing in its footsteps, in proportion to the extent they have been worked, and the amount

to the extent they have been worked, and the amount of ground they cover.

PHRENIX MISE.—This mine, located at Eagle River, has undergone several changes during the past few years, and has not, until the past year, made much progress. But it now appears to have passed into more energetic and systematic hands, and good results may now be expected.

TOLIKE MINE.—We hear it rumored that this mine is to suspend operations on account of the expense attendant upon its working. We regret hearing this, yet if it costs more to get the copper out than it is worth, it is perhaps the better course.

GARDEN CITY MINE.—This mine still opens up good, and promises to repay the labor well.

Market .. CAREFULLY REPORTED FOR THE TRIBUNG. WEDNESDAY, Oct. 22, 1856.
ASHES—The market is better for Pors, with some speculave inquiry; sales of 21 bbis, at \$7.87s \$5. Pearls are buoytive inquiry; sales of 21 bbis, at \$750 pc.
ant at \$8750 pc.
BRICKS AND TILLS-There is no change to report in

prices. Sales are making of Hard North River at 44 25 24 4 5; Philadelphia command \$120 ± 20; Collaborgh, \$720 ± 10. In foreign there is a moderate business driver at \$250 ± 20 for bath \$450 ± 20 for Stourbridge, and \$300 ± 35 for Weish. \$450 ± 20 for Stourbridge, and \$300 ± 35 for Weish. BCGTS AND SHOES. The full effect of the high cost of leather len we being tole, and prices of all kinds tend strongly upward, as there is every indication that the raw material may upward, as there is every indication that the raw material may very moderate. House enhanced prices do not seem to draw very moderate. House enhanced prices do not seem to draw ever an administrative considerable centron. Light work (such as very operated with considerable centron. Light work (such as ver operated when considerable centron. Light work (such as ver operated when he work and the advance on these descriptions has scarce comparatively, and the advance on these descriptions has scarce comparatively, and the advance on these descriptions has scarce comparatively. And the advance on these descriptions has scarce comparatively, and the advance on these descriptions has scarce comparatively. Good city-made Misses and Women't Monacco Boots and Buskin are exarce, and dealer a two more more stources than they can conveniently fill. The bulk of the burdness for the South and South-west is over, and be fore the close of the season the ages gotte sales will prove satisfactory.

We would be supplied to the same of the season the ages gotte sales will prove satisfactory.

Morecce Books and Buskin and extract, and observe for other stem they can conveniently fill. The bells of the business for the South and South-west is over, and before the close of the south the aggregate sales will prove satisfactory.

4476 7 B. Rough Flax is scarce and wanted at \$2.25 on the seed is scarce and wanted; fast cales of Calentta at \$2.35 on the spot and \$2.25 for its arrivals.

TALLOW—The market is firm; sales of \$1,000 fb at 12c, for common and \$12/3 ft/2c, for good to prime. Rough Fat is firm at blc.

TEAS—The sale to-day passed off with much spirit. There was a large attendance, and both Greens and Biacks realized full prices. The low and carge grades of Young Hyson went 1 to 2c, higher; but the good qualified did not advance. Oslongs sold a shade better, and prices proving satisfactory, nearly all the estalezue was sold.

TIN—Block Yin is in moderate demand. Banca is selling in a small way at 534 604c, cash, from store. Straits Tim has been fairly active at \$35c, 6 mos. Plates are scarce and prices remain firm; \$\times \text{are selling allowly at \$412.50, and \$1 C. Coke at \$410 124 \text{ \$410 25, 6 mos. Coke Terms are in fair request at \$9.625 at \$450 724 \text{ \$10 25, 6 mos. Coke Terms are in fair request at \$9.625 at \$40 70 coli-

past three days of 125 hads. Kentucky at 10 d 17c., and 200 cases. Seedless at 10 d 12c.

WOOL—There continues a good demand for Native Fleece. Wool at the improvement, but the transactions continue restricted somewhat, owing to the small stock offering and the high prices asked: sales 75,000 fb in lots, at 40 d 50c, as to guality, some extensive sales have been made in the interior of the country on manufacturing account, but the prices have been kept secret. It is well known now keyend cavil that the stock of Demestic Fleece and Pulled Wools in the country is inadequate to the demand. Under the influence of present high rates for Wool, it becomes necessary for the manufacturers to exercise more than the usual caurion in the production of their fabrics in converting the raw material to proper use, and not overstock the market with traily or any one description of goods, for it is evident that the high rates for the raw material must ries in converting the raw material to proper use, and not overtook the market with trashy or any one description of goods, for it is evident that the high rates for the raw material must enhance of the value of goods the coming season, thus bringing the demestic producer into closer competition with the foreign fabricants. Caution, therefore, is necessary on this score. Pulled Wood is in fair request; sales 20,000 fb, vilots, at 37jc, for fine Lambs, and 45c, for extra Country Foreign has been quize active, and the steek is becoming reduced and is very small for the season; the sales for the week comprise 350 to 400 bales washed Syrina at 35jc, 37c, 220 bales common Buenes Ayres and Entire Ries at about 14c., and 50 bales Cordova at 35c., all 6 most also 200 bales washed Smyrna and 70 bales common and fine Mexitio on private terms.

WHISKY = The market is better, and more active; sales of 600 bble, at 56c.

WINES—Prices are well supported; the demand is mod-erate; sales of 100 qr. casks Burgundy Port at \$1.50\(\pi\)\$\$\psi\)\$ 175; 50 do. Sherry at \$1.50\(\pi\)\$\$\psi\\$25; and 25 do. Maiaga at \$1. ZINC—Sheet is firmly held at \$2\(\pi\)\$\$\psi\\$16.00. The demand is, however, limited, and confined to small transactions from

There seemed much difference of opinion among sale amen as to the relative prices obtained to-day and the day was, and to have gone to another horce-race somewhere, much to the disappoval of the drevers, who threaten to stop Tag Tristvae in consequence of such bad examples,) we (the substitute feel some diffidence in giving an opinion, but think, from what we could learn, that good Cattle brought a little more than last week—saw [42]. P B; medium Cattle about the same, and ordinary fors full §c. lower.

The number in market to-day was 2,662, being about 1,300 less than last Wednesday, notwithstanding which the market was unquestionably very dul; and had it not been that there were a number of ranters on the ground, many of the cattle would have been left over.

About 1,500 Cattle were bought in Albany for the Eastern market, at prices said to be better for owners than those obtained here. About 300 were sold at Bergen this week. Fally 500 are estimated left over from this day's market.

Among the numerous droves we note the following sales:

Evach & Smith sold 104 Illinois steers by McPherson & Benjamin; weight 650 B; price from \$300 to \$100 t

Targe, being better prices than come have been obtained as Allerton's to-day.

Miller, Haring & Gurney sold 69 Illinois steers, by Harris, at #17, or about \$c. By same parties, at Bergen, a mixed lot of \$5 Ohio cattle: price about \$c. Also, selling to-day a lot of 47 common cattle from Indianapolis, Ind.; offered at #13, or less than \$c.

Geo. Ayrault, 171 Illinois cattle, by Nichols & Funk; light common, selling from \$25%. Also, by same salesmen, 14

Geo. Ayranit. 171 Illinois cattle, by Nichols & Funk; light common; selling from & Esje. Also, by same salesanes, 14 extra cattle, from A. Ayranit; 9 will sell for \$129 each, or 11c.; 3 were bought by Flotenee for \$376, fully lie.
C. W. Conger is selling 123 Illinois cattle, bought at Albany; 75 now sold at 9c.; 29 sold for shipping for less than 9c. These were fair Kentucky cattle.
Vail & Cairy sold to J. Anderson an extra Kentucky heifer, bought at anction in Albany; estimated net weight 1,600 lb; price 11c. by weight, when dressed.
Also, by same salesman to same purchaser, 12 extra steers at \$90 or 16c.
Valentine & Martin are selling 48 State cattle from Cattraugus County, 6 sold to Isaac Valentine at \$100 or 10c. These were the cream of the drove; the remainder, fair lot, selling at 8 20c.
J. A. Merritt is selling 101 common Illinois, by J. T. Alexaner, servaging 9c.

der, averaging 9c. Mead & Holcomb, 73 common Ohio steers, by Asbury & Mil-Mean & Housenb, 12 common Ome seers, by Abouty & Shi-ler; aversae price 2c.

W. W. Houg is selling 10 good Dutchess County of From Plerce; 5 sold at \$90,5 at \$70, about 10c.

W. Sherman is selling 15 Dutchess County cattle, a good lot; price 9 \$\overline{\pi}\$ (10c.)

S. Sherman is selling 35 good Illinois cattle, by S. W. Aller-

w. Sherman is selling 15 good Illinois cattle, by S. W. Allerton price \$\sqrt{3}\text{ille}\$ S. Sherman is selling 15 good Illinois cattle, by S. W. Allerton price \$\sqrt{3}\text{ille}\$ Potent \$\sqrt{3}\text{ille}\$ The same shall we shall \$1.250 fb at home, trying to get \$6\$.

Sold at Bergen, by George Sage, 18 fair Ohio cattle, by Wood of Marion County price about 56.

SHEEP AND LAMBS—Although the receipts at Browning's was 2,25 least this week than last, the market has been decidedly dull and about 500 remained in the pens Tucaday evening, unsold. Several causes are assigned for the depression in market, the heavy recepts last week, the promess of quality, the large quantities of Mutton in carease coming in on the Albary boats, and sold in Washington market at prices so low that butchers find it for their interest to purchase their rather than buy on foot. Also the season for Pork and Poultry now coming on, Mutton is less sought for by consumers. Many of the Sheep now in market have been in the pens for 10 days, and some over two weeks.

We note one lot of al Sheep which were bought in the country, by good buyers, at \$120 per bead, that sold in this market at \$120 to \$12 Sheep which were bought in the country, by good buyers, at \$120 per bead, that sold in this market at \$120 to \$12 Sheep which were bought in the country, by good buyers, at \$120 per bead, that sold in this market at \$120 to \$12 Sheep which were bought in the country, by good buyers, at \$120 per bead, that sold in this market at \$120 to \$12 Sheep which were bought in the country.

We note one lot of all Sheep which were bought in the country, by good buyers, at \$120 per bead, that sold in this market at \$120 to \$10 to \$12 Sheep which were bought in the country.

We note the lower than last week. Receipts are from this State, Ohlo, and a few from New Jersey. The Telegraph is brought into requisition to stop arrivals.

Sales of Sheep and Lambs by Beach Smith & Judd, for the week ending Wednesday, Oct. 22, 1256:

No.

Amount. Ar. No.

20 Sheep \$5

sirce last week. There is no deman! for family use, and milkmen are afraid to buy, on account of the distemper which a
now very prevalent in some of the establishments.
SWINE.—The arrivals of Hogs bave been light the last week.
Heavy Hogs are doing relatively better than light; many of the
light now coming in are too thin to dress.
Sales by G. W. Downer.—It's Indiana corn-fed, average 206 B
areas, at 6[c., 106 Cheutaque Co. corn-fed Hors from B. Darard, average 180 B. ross, at 6[c., 501 still-fed Hogs from Cambridge City, Ind., by E. Hutchit son—price, 6[c. gress.

Philadelphia Cattle Starket. Oct. 22.

The markets yesterday and to-day were fully supplied, and the sale of Reef Cattle was rather dull. 1,100 head were disposed of at Torbert's avenue Drove-Yard, as follows:
